STUDENT'S FULL NAME

DATE OF BIRTH

HOW VIRTUAL SESSIONS WORK

- Virtual sessions are held by live video using a commonly available platform (such as Zoom or Google Meet); the session link is provided in advance.
- The student should join from a quiet, comfortable space with any materials requested ahead of time.
- **For students who are minors, a parent/caregiver must be at home or immediately reachable by phone** for the duration of each virtual session.
- **Sessions are not recorded** by Hill Education Services, and families agree not to record sessions, without the prior written agreement of both parties.
- While reputable platforms and reasonable safeguards are used, no video technology can be guaranteed perfectly private or uninterrupted; technical disruptions will be handled by reconnecting or rescheduling.
- If a virtual format is not serving the student well, Susan will discuss alternatives, including in-person sessions.

CONSENT

I consent to my child receiving services from Hill Education Services by live video as described above. I understand I may withdraw this consent at any time in writing, and that in-person services remain available as an alternative.
